

2002 TOWING REIMBURSEMENT PROGRAM

Full H.O.G. members requiring towing service for their Harley-Davidson® or Buell® motorcycle when more than 50 miles (80 kilometers) from home, are eligible for reimbursement under the Harley Owners Group® Towing Reimbursement Program.

Members should call an authorized Harley-Davidson dealer for towing service. (Authorized dealers are listed in your Touring Handbook.) If the Harley-Davidson dealer is closed or unable to provide service, the member can call an authorized towing service. (An authorized towing service is a business entity engaged in towing operations.)

The Towing Reimbursement Program is applicable only for a Harley-Davidson or Buell motorcycle owned by and registered to a current full or full life member of the Harley Owners Group. It is available in the United States and Canada.

The H.O.G.® Towing Reimbursement Program is not a substitute for repairs and is intended for use only in emergencies. In fairness, the Harley Owners Group reserves the right to refuse service or to cancel/not renew the membership of a member using excessive road service. Excessive road service is usage considerably above the membership norm.

To receive your reimbursement, you must:

- Be 50 miles (80 kilometers) or more away from home.
- Pay the full amount due for services provided to you.
- Send the completed Towing Reimbursement Program Form with the original towing receipt attached.
- Information must be submitted within three (3) months of the tow date.

The Harley Owners Group will reimburse you for your towing cost up to U.S. \$100. All costs in excess of U.S. \$100 are the member's responsibility. Service performed after you are picked up is not covered under this program. Towing from your home is not covered.

This program is not intended to cover all motorcycle related issues. This program is meant to supplement a portion of your out of pocket costs.

A check will be mailed to you within four to six weeks of the date H.O.G.® receives the proper paperwork.
